

The European Cancer Rehabilitation & Survivorship Symposium 2012

Copenhagen September 16-18, 2012

ECRS 2012 offers an opportunity to gain more insight into subjects including:

- How to integrate cancer treatment, late effects, rehabilitation and survivorship
- Comorbidity and ageing – new challenges
- How do we integrate health behaviour and psychosocial support in cancer treatment?
- Endocrine late effects and fertility issues – how do we counsel patients?
- Childhood cancer, late effects and rehabilitation

The symposium program will include interactive workshops led by experts in the field, keynote speakers, oral presentations and poster presentations.

Registration

Online registration and abstract submission will open in March 2012. Remember to register early for a reduced early bird fee.

The organizing committee welcomes contributions from researchers, health professionals, students as well as administrators working with cancer rehabilitation and survivorship.

Confirmed keynote speakers

James Coyne
Alex Mitchell
Lodovico Balducci
Daniel J. Lenihan
& Sophie Fosså
